

PRATT INTERNAL MEDICINE GROUP

# ***To protect yourself, our doctors and staff!***

*We know it is not comfortable, however we want to stress how important these 3 steps are to protect everyone.*

For the best protection, the mask must cover **both** your **Nose and Mouth!**

**Please keep your mask on at all times** in this room, unless asked to remove by your doctor.

Try your hardest **not to touch the** mask and **do NOT remove it to talk.**
